Discussion

Research projects to be taken up- The Secretary requested all the college staff members to take up research projects. The management was ready to fund the projects if required. It was recommended that help should be taken from competent students of the MED course to assist the faculty members to take up the research projects.

Remedial teaching to weak students- The mentors of the students should be made to identify students who are weak and remedial classes should be conducted for them before the commencement of final exams. Students weak in teaching skills should also be made to practice them again in the college.

Library facilities- The principal reported that majority of the students are referring to online resources so the use of technology should be strengthened. More and more, online resources should be provided, the number of computers in the library should be increased.

Classes for MOOCs. The Secretary recommended that Staff members should take online classes for MOOCs. This would broaden their horizon and their expertise will be available to more and more students. 5-6 faculty members of the college volunteered to take up the work of MOOCs.
